AUTHOR INDEX

Al-Eknah, M.M. and Noakes, D.E. (Hatfield, Great Britain)
The effect of different rates of oxytocin infusion on the progesterone primed uterus in chronically catheterised, ovariectomised ewes 69
Alanko, M., see Vesanen, M. et al.
Bartos, L. and Trojan, S. (Praha, Czechoslovakia)
Effect of prolonged frequency of mating by the male rat on his fertility and on the sex ratio of this offspring 271
Bevers, M.M., Dieleman, S.J. and Kruip, Th.A.M. (Utrecht, The Netherlands)
Chronic treatment with bromocryptine during the oestrous cycle of the cow: evidence that prolactin is not involved in preovulatory follicular growth 21
Bevers, M.M., see Taverne, M.A.M. et al.
Blum, Orly, see Wolfenson, D. and Blum, Orly
Cardoso, F.M. and Queiroz, G.F. (Belo, Horizonte, Brazil)
Duration of the cycle of the seminiferous epithelium and daily sperm production of Brazilian hairy rams 77
Chiesa, F., see Prandi, A. et al.
Ciereszko, R., see Dusza, L. et al.
Den Hartog, L.A., see Kemp, B. et al.
Diaz, P., Gosalvez, L.F. (Lerida, Spain) and Rodriguez, J.M. (Madrid, Spain)
Sexual behaviour in the postpartum period of domestic rabbits 251
Dieleman, S.J., see Taverne, M.A.M. et al.
Dieleman, S.J., see Bevers, M.M. et al.
Dusza, L, Okrasa, S., Ciereszko, R., Kotwica, G. (Olsztyn, Poland) and Tilton, J.E. (Fargo, ND, U.S.A.)
Endocrine changes associated with spontaneous luteolysis in sows. I. Temporal relationships among prolactin, prostaglandin $F_{2\alpha}$, progesterone and LH 115
Edqvist, L.-E., see Rojanasthien, S. et al.
Einarsson, S., see Rojanasthien, S. et al.
ElWishy, A.B. (Giza, Egypt)
Reproduction in the male dromedary (Camelus dromendarius): a review 217
Fontijne, P., see Taverne, M.A.M. et al.
Fránek, M., Hruška, K., Vaňková, S., Kaláb, P. (Brno, Czechoslovakia), Hrůska, K., Jr. and Kubis, P. (Slušovice, Czechoslovakia)
Spehadex column radioimmunoassay of metabolized oestrone for the monitoring of follicular function and early pregnancy detection in mares 281
Ginther, Q.J., see Townson, D.H. and Ginther, Q.J.
Gosalvez, L.F., see Diaz, P. et al.
Gregoraszczuk, E., Stoklosowa, S., Tarnawska, M. and Rzasa, J. (Krakow, Poland)
The effect of oxytocin on steroid hormone secretion by isolated porcine follicular cells in tissue culture 141
Grooten, H.J.G., see Kemp, B. et al.
Haresign, W., see McLeod, B.J. et al.
Hrůska, K., Jr., see Fránek, M. et al.
Hrůska, K., see Fránek, M. et al.
Humke, R., see McLeod, B.J. et al.
Inskeep, E.K., see Lopez Sebastian, A. and Inskeep, E.K.
Ishii, S., see Miyamoto, A. et al.
Isomaa, V., see Vesanen, M. et al.

Ito, S., see Miyamoto, A. et al.
Janowski, T., Zduńczyk, S., Raś, A. and Okrasa, S. (Olsztyn, Poland)
Mammary secretion of oestrogens and prostaglandin $F_{2\alpha}$ in cows near parturition 297
Johnstone, P.D., see Montgomery, G.W. et al.
Kaláb, P., see Fránek, M. et al.
Kanchev, L.N., Marinova, Ch.P. and Stankov, B.M. (Sofia, Bulgaria)
Bovine salivary progesterone: application to the assessment of ovarian function and early pregnancy diagnosis 1
Kemp, B. (Wageningen, The Netherlands), Grooten, H.J.G. (Helden, The Netherlands), Den Hartog, L.A., Luiting, P. and Verstegen, M.W.A. (Wageningen, The Netherlands)
The effect of a high protein intake on sperm production in boars at two semen collection frequencies 103
Kindahl, H., see Rojanasthien, S. et al.
Kotwica, G., see Dusza, L. et al.
Kruip, Th.A.M., see Bevers, M.M. et al.
Kubis, P., see Fránek, M. et al.
Kumi-Diaka, J., see Sekoni, V.O. et al.
Lamming, G.E., see McLeod, B.J. et al.
Laskowska, T., see Slaweta, R. et al.
Lopez Sebastian, A. (Madrid, Spain) and Inskeep, E.K. (Morgantown, WV, U.S.A.)
Effects of progesterone pretreatment and duration of ram exposure on synchronization of estrus, conception and pregnancy by prostaglin during seasonal anestrus 185
Luiting, P., see Kemp, B. et al.
Lundeheim, N., see Rojanasthien, S. et al.
Madani, M.O.K., and Rahal, M.S. (Tripoli, Libya)
Puberty in Libyan male goats 207
Marinova, Ch.P., see Kanchev, L.N. et al.
Masaki, J., see Miyamoto, A. et al.
McLeod, B.J., Haresign, W. Peters, A.R. (Loughborough, Great Britain), Humke, R. (Frankfurt am Main) and Lamming, G.E. (Loughborough, Great Britain)
The development of subcutaneous-delivery preparations of GnRH for the induction of ovulation in acyclic sheep and cattle 33
Miyamoto, A., Umezu, M., Ito, S., Ishii, S., Masaki, J. and Ohta, M. (Miyagi, Japan)
Effects of bull seminal plasma extract on release of FSH and LH by GnRH injection in pubertal beef bulls 177
Montgomery, G.W., Scott, I.C. and Johnstone, P.D. (Mosgiel, New Zealand)
Seasonal changes in ovulation rate in Coopworth ewes maintained at different liveweights 197
Motta, M., see Prandi, A. et al.
Mukasa-Mugerwa, E. and Tekelye, B. (Addis Ababa, Ethiopia)
The reproductive performance of Ethiopian Highland sheep 95
Njoku, C.O., see Sekoni, V.O. et al.
Noakes, D.E., see Al-Eknah, M.M. and Noakes, D.E.
O'Shaughnessy, P.J. (London, Great Britain), Wathes, D.C. (Bristol, Great Britain)
Bovine luteal cell activity in culture. Maintenance of steroidogenesis by high density lipoprotein containing high or low beta-carotene concentrations 165
Ohta, M., see Miyamoto, A. et al.
Okrasa, S., see Dusza, L. et al.
Okrasa, S., see Janowksi, T. et al.
Olorunju, S.A.S., see Sekoni, V.O. et al.
Peters, A.R., see McLeod, B.J. et al.

Prandi, A., Motta, M., Chiesa, F. (Bologna, Italy) and Tamanini, C. (Bari, Italy)
Circannual rhythm of plasma prolactin concentration in the goat 85
Queiroz, G.F., see Cardoso, F.M. and Queiroz, G.F.
Rahal, M.S., see Madani, M.O.K. and Rahal, M.S.
Ras, A., see Janowski, T. et al.
Rodriguez, J.M., see Diaz, P. et al.
Rojanasthien, S., Einarsson, S., Kindahl, H., Edqvist, L.-E. and Lundeheim, N. (Uppsala, Sweden)
Clinical and endocrine responses to pulsatile administration of gonadotropin-releasing hormone (gnRH) treatment during lactation in primiparous sows 123
Rzasa, J., see Gregoraszczuk, E. et al.
Saror, D.I., see Sekoni, V.O. et al.
Scott, I.C., see Montgomery, G.W. et al.
Sekoni, V.O., Kumi-Diaka, J., Saror, D.I., Njoku, C.O. and Olorunju, S.A.S. (Zaria, Nigeria)
Seasonal and monthly variations in the incidence of morphological abnormalities in the bovine spermatozoa in Shika, Zaria, Northern Nigeria 61
Slaweta, R. (Jabłonna, Poland), Laskowska, T. and Szymánske, E. (Warsaw, Poland)
Seasonal changes in total and selenium-dependent glutathione peroxidase activity in bovine semen in relation to lipid peroxide 303
Stankov, B.M., see Kanchev, L.N. et al.
Stoklosowa, S., see Gregoraszczuk, E. et al.
Szymánska, E., see Slaweta, R. et al.
Tamanini, C., see Prandi, A. et al.
Tarnawska, M., see Gregoraszczuk, E. et al.
Tauson, A.-H. (Uppsala, Sweden)
Flushing of mink. Effects of level of preceding feed restriction and length of flushing period on reproductive performance 243
Taverne, M.A.M., Bevers, M.M., Van der Weyden, G.C., Dieleman, S.J. and Fontijne, P. (Utrecht, The Netherlands)
Concentration of growth hormone, prolactin and cortisol in fetal and maternal blood and amniotic fluid during late pregnancy and parturition in cows with cannulated fetuses 51
Tekelye, B., Mukasa-Mugerwa, E. and Tekelye, B.
Tilton, J.E., see Dusza, L. et al.
Townson, D.H. and Ginther, Q.J. (Madison, WI, U.S.A.)
The development of fluid-filled luteal glands in mares 155
Trojan, S., see Bartos, L. and Trojan, S.
Umezu, M., see Miyamoto, A. et al.
Van der Weyden, G.C., see Taverne, M.A.M. et al.
Vaňková, S., see Fránek, M. et al.
Verstegen, M.W.A., see Kemp, B. et al.
Vesanen, M., Isomaa, V. (Oulu, Finland), Alanko, M. (Hautjärvi, Finland) and Vihko, R. (Oulu, Finland)
Cytosol estrogen and progesterone receptors in bovine endometrium after uterine involution postpartum and in the estrous cycle 9
Vihko, R., see Vesanen, M. et al.
Wathes, D.C., see O'Shaughnessy, P.J. and Wathes, D.C.
Wolfenson, D. and Blum, Orly (Rehovot, Israel)
Embryonic development, conception rate, ovarian functtion and structure in pregnant rabbits heat-stressed before or during implantation 259
Zduńczyk, S., see Janowski, T. et al.

SUBJECT INDEX

Behaviour
Sexual behaviour in the postpartum period of domestic rabbits 251
Behaviour
Reproduction in the male dromedary (*Camelus dromedarius*): a review 217
Bromocryptine
Chronic treatment with bromocryptine during the oestrous cycle of the cow: evidence that prolactin is not involved in preovulatory follicular growth 21
Carotene
Bovine luteal cell activity in culture. Maintenance of steroidogenesis by high density lipoprotein containing high or low beta-carotene concentrations 165
Cattle
Bovine luteal cell activity in culture. Maintenance of steroidogenesis by high density lipoprotein containing high or low beta-carotene concentrations 165
Bovine salivary progesterone: application to the assessment of ovarian function and early pegnancy diagnosis 1
Chronic treatment with bromocryptine during the oestrous cycle of the cow: evidence that prolactin is not involved in preovulatory follicular growth 21
Concentration of growth hormone, prolactin and cortisol in fetal and maternal blood and amniotic fluid during late pregnancy and parturition in cows with cannulated fetuses 51
Cytosol estrogen and progesterone receptors in bovine endometrium after uterine involution postparum and in the estrous cycle 9
Development of subcutaneous-delivery preparations of GnRH for the inducation of ovulation in acyclic sheep and cattle 33
Effects of bull seminal plasma extract on release of FSH and LH by GnRH injection in pubertal beef bulls 177
Mammary secretion of oestrogens and prostaglandin $F_{2\alpha}$ in cows near parturition 297
Seasonal and monthly variations in the incidence of morphological abnormalities in the bovine spermatozoa in Shika, Zaria, Northern Nigeria 61
Seasonal changes in total and selenium dependent glutathione peroxidase activity in bovine semen in relation to lipid peroxide 303
Conception
Effects of progesterone pretreatment and duration of ram exposure on synchronization of estrus, conception and pregnancy by prostaglandin during seasonal anestrus 185
Embryonic development, conception rate, ovarian function and structure in pregnant rabbits heat-stressed before or during implantation 259
Corpus luteum
Bovine luteal cell activity in culture. Maintenance of steroidogenesis by high density lipoprotein containing high or low beta-carotene concentrations 165
Development of fluid-filled luteal glands in mares 155
Endocrine changes associated with spontaneous luteolysis in sows. I. Temporal relationships among prolactin, prostaglandin $F_{2\alpha}$, progesterone and LH 115
Cortisol
Concentration of growth hormone, prolactin and cortisol in fetal and maternal blood and amniotic fluid during late pregnancy and parturition in cows with cannulated fetuses 51
Dromedary
Reproduction in the male dromedary (*Camelus dromedarius*): a review 217

Embryology
Embryonic development, conception rate, ovarian function and structure in pregnant rabbits heat-stressed before or during implantation 259
Endocrinology, female – cattle
Bovine salivary progesterone: application to the assessment of ovarian function and early pregnancy diagnosis 1
Chronic treatment with bromocryptine during the oestrous cycle of the cow: evidence that prolactin is not involved in preovulatory follicular growth 21
Concentration of growth hormone, prolactin and cortisol in fetal and maternal blood and amniotic fluid during late pregnancy and parturition in cows with cannulated fetuses 51
Cytosol estrogen and progesterone receptors in bovine endometrium after uterine involution postpartum and in the estrous cycle 9
Mammary secretion of oestrogens and prostaglandin $F_{2\alpha}$ in cows near parturition 297
Endocrinology, female – goat
Circannual rhythm of plasma prolactin concentration in the goat 85
Endocrinology, female – horse
Sephadex column radioimmunoassay of metabolized oestrone for the monitoring of follicular function and early pregnancy detection in mares 281
Endocrinology, female – pig
Clinical and endocrine responses to pulsatile administration of gonadotropin-releasing hormone (GnRH) treatment during lactation in primiparous sows 123
Effect of oxytocin on steroid hormone secretion by isolated porcine follicular cells in tissue culture 141
Endocrine changes associated with spontaneous luteolysis in sows. I. Temporal relationships among prolactin, prostaglandin $F_{2\alpha}$, progesterone and LH 115
Endocrinology, female – rabbit
Embryonic development, conception rate, ovarian function and structure in pregnant rabbits heat-stressed before or during implantation 259
Endocrinology, female – sheep
Development of subcutaneous-delivery preparations of GnRH for the induction of ovulation in acyclic sheep and cattle 33
Effects of progesterone pretreatment and duration of ram exposure on synchorinization of estrus, conception and pregnancy by prostaglandin during seasonal anestrus 185
Effect of different rates of oxytocin infusion on the progesterone primed uterus in chronically catheterised, ovariectomised ewes 69
Endocrinology, male – cattle
Effects of bull seminal plasma extract on release of FSH and LH by GnRH injection in pubertal beef bulls 177
Endocrinology, male – dromedary
Reproduction in the male dromedary (*Camelus dromedarius*): a review 217
Endometrium
Cytosol estrogen and progesterone receptors in bovine endometrium after uterine involution postpartum and in the estrous cycle 9
Enzymology
Seasonal changes in total and selenium dependent glutathione peroxidase activity in bovine semen in relation to lipid peroxide 303
Feeding and nutrition
Effect of a high protein intake on sperm production in boars at two semen collection frequencies 103
Flushing of mink. Effects of level of preceding feed restriction and length of flushing period on reproductive performance 243

Fertility
Effect of prolonged frequency of mating by the male rat on his fertility and on the sex ratio of his offspring 271
Flushing
Flushing of mink. Effects of level of preceding feed restriction and length of flushing period on reproductive performance 243
Follicle
Chronic treatment with bromocryptine during the oestrous cycle of the cow: evidence that prolactin is not involved in preovulatory follicular growth 21
Sephadex column radioimmunoassay of metabolized oestrone for the monitoring of follicular function and early pregnancy detection in mares 281
FSH
Effects of bull seminal plasma extract on release of FSH and LH by GnRH injection in pubertal beef bulls 177
GnRH
Clinical and endocrine responses to pulsatile administration of gonadotropin-releasing hormone (GnRH) treatment during lactation in primiparous sows 123
Development of subcutaneous-delivery preparations of GnRH for the induction of ovulation in acyclic sheep and cattle 33
Effects of bull seminal plasma extract on release of FSH and LH by GnRH injection in pubertial beef bulls 177
Goat
Circannual rhythm of plasma prolactin concentration in the goat 85
Puberty in Libyan male goats 207
Growth hormone
Concentration of growth hormone, prolacin and cortisol in fetal and maternal blood and amniotic fluid during late pregnancy and parturition in cows with cannulated fetuses 51
Horse
Development of fluid-filled luteal gland in mares 155
Sephadex column radioimmunoassay of metabolized oestrone for the monitoring of follicular function and early pregnancy detection in mares 281
Implantation
Embryonic development, conception rate, ovarian function and structure in pregnant rabbits heat-stressed before or during implantation 259
Lactation
Clinical and endocrine responses to pulsatile administration of gonadotropin-releasing hormone (GnRH) treatment during lactation in primiparous sows 123
LH
Effects of bull seminal plasma extract on release of FSH and LH by GnRH injection in pubertal beef bulls 177
LH
Endocrine changes associated with spontaneous luteolysis in sows. I. Temporal relationships among prolactin, prostaglandin $F_{2\alpha}$, progesterone and LH 115
Luteolysis
Endocrine changes associated with spontaneous luteolysis in sows. I. Temporal relationships among prolactin, prostaglandin $F_{2\alpha}$, progesterone and LH[3] 115
Mating frequency
Effect of prolonged frequency of mating by the male rat on his fertility and on the sex ratio of his offspring 271
Mink
Flushing of mink. Effects of level of preceding feed restriction and length of flushing period on reproductive performance 243

Oestrogens
Cytosol estrogen and progesterone receptors in bovine endometrium after uterine involution postpartum and in the estrous cycle 9
Mammary secretion of oestrogens and prostaglandin $F_{2\alpha}$ in cows near parturition 297
Sephadex column radioimmunoassay of metabolized oestrone for the monitoring of follicular function and early pregnancy detection in mares 281
Oestrous cycle
Chronic treatment with bromocryptine during the oestrous cycle of the cow: evidence that prolactin is not involved in preovulatory follicular growth 21
Cytosol estrogen and progesterone receptors in bovine endometrium after uterine involution postpartum and in the estrous cycle 9
Oestrus synchronization
Effects of progesterone pretreatment and duration of ram exposure on synchronization of estrus, conception and pregnancy by prostaglandin during seasonal anestrus 185
Ovulation induction
Development of subcutaneous-delivery preparations of GnRH for the induction of ovulation in acyclic sheep and cattle 33
Ovulation rate
Seasonal changes in ovulation rate in Coopworth ewes maintained at different liveweights 197
Oxytocin
Effect of different rates of oxytocin infusion on the progesterone primed uterus in chronically catheterised, ovariectomised ewes 69
Effect of oxytocin on steroid hormone secretion by isolated porcine follicular cells in tissue culture 141
Parturition
Concentration of growth hormone, prolactin and cortisol in fetal and maternal blood and amniotic fluid during late pregnancy and parturition in cows with cannulated fetuses 51
Mammary secretion of oestrogens and prostaglandin $F_{2\alpha}$ in cows near parturition 297
Pig
Clinical and endocrine responses to pulsatile administration of gonadotropin-releasing hormone (GnRH) treatment during lactation in primiparous sows 123
Effect of a high protein intake on sperm production in boars at two semen collection frequencies 103
Effect of oxytocin on steroid hormone secretion by isolated porcine follicular cells in tissue culture 141
Endocrine changes associated with spontaneous luteolysis in sows. I. Temporal relationships among prolactin, prostaglandin $F_{2\alpha}$, progesterone and LH 115
Pregnancy
Concentration of growth hormone, prolactin and cortisol in fetal and maternal blood and amniotic fluid during late pregnancy and parturition in cows with cannulated fetuses 51
Effects of progesterone pretreatment and duration of ram exposure on synchronization of estrus, conception and pregnancy by prostaglandin during seasonal anestrus 185
Embryonic development, conception rate, ovarian function and structure in pregnant rabbits heat-stressed before or during implantation 259
Pregnancy detection
Sephadex column radioimmunoassay of metabolized oestrone for the monitoring of follicular function and early pregnancy detection in mares 281
Pregnancy diagnosis
Bovine salivary progesterone: application to the assessment of ovarian function and early pregnancy diagnosis 1

Porgesterone
Bovine salivary progesterone: application to the assessment of ovarian function and early pregnancy diagnosis 1
Cytosol estrogen and progesterone receptors in bovine endometrium after uterine involution postpartum and in the estrous cycle 9
Effect of different rates of oxytocin infusion on the progesterone primed uterus in chronically cathererised, ovariectomised ewes 69
Effects of progesterone pretreatment and duration of ram exposure on synchronization of estrus, conception and pregnancy by prostaglandin during seasonal anestrus 185
Endocrine changes associated with spontaneous luteolysis in sows. I. Temporal relationships among prolactin, prostaglandin $F_{2\alpha}$, progesterone and LH 115
Prolactin
Chronic treatment with bromocryptine during the oestrous cycle of the cow: evidence that prolactin is not involved in preovulatory follicular growth 21
Circannual rhythm of plasma prolactin concentration in the goat 85
Concentration of growth hormone, prolactin and cortisol in fetal and maternal blood and amniotic fluid during late pregnancy and parturition in cows with cannulated fetuses 51
Endocrine changes associated with spontaneous luteolysis in sows. I. Temporal relationships among prolactin, prostaglandin $F_{2\alpha}$, progesterone and LH 115
Prostaglandins
Effects of progesterone pretreatment and duration of ram exposure on synchronization of estrus, conception and pregnancy by prostaglandin during seasonal anestrus 185
Mammary secretion of oestrogens and prostaglandin $F_{2\alpha}$ in cows near parturition 297
Puberty
Puberty in Libyan male goats 207
Rabbit
Sexual behaviour in the postpartum period of domestic rabbits 251
Rat
Effect of prolonged frequency of mating by the male rat on his fertility and on the sex ratio of his offspring 271
Reproductive performance
Flushing on mink. Effects of level of preceding feed restriction and length of flushing period on reproductive performance 243
Reproductive performance of Ethiopian Highland sheep 95
Seasonality
Circannula rhythm of plasma prolactin concentration in the goat 85
Seasonal and monthly variations in the incidence of morphological abnormalities in the bovine spermatozoa in Shika, Zaria, Northern Nigeria 61
Seasonal changes in ovulation rate in Coopworth ewes maintained at different liveweights 197
Seasonal changes in total and selenium dependent glutathione peroxidase activity in bovine semen in relation to lipid peroxide 303
Semen characteristics
Seasonal changes in total and selenium dependent glutathione peroxidase activity in bovine semen in relation to lipid peroxide 303
Seminal plasma
Effects of bull plasma extract on release of FSH and LH by GnRH injection in pubertal beef bulls 177
Sex ratio
Effect of prolonged frequency of mating by the male on his fertility and on the sex ratio of his offspring 271

Sheep
Development of subcutaneous-delivery preparations of GnRH for the induction of ovulation in acyclic sheep and cattle 33
Duration of the cycle of the seminiferous epithelium an dialy sperm production of Brazilian hairy rams 77
Effect of different rates of oxytocin infusion on the progesterone primed uterus in chronically catheterised, ovariectomised ewes 69
Effects of progesterone pretreatment and duration of ram exposure on synchronization of estrus, conception and pregnancy by prostaglandin during seasonal anestrus 185
Reproductive performance of Ethiopian highland sheep 95
Seasonal changes in ovulation rate in Coopworth ewes maintained at different liveweights 197
Sperm production
Duration of the cycle of the seminiferous epithelium and daily sperm production of Brazilian hairy rams 77
Effect of a high protein intake on sperm production in boars at two semen collection frequencies 103
Spermatogenesis
Reproduction in the male dromedary (*Camelus dromedarius*): a review 217
Spermatozoa
Seasonal and monthly variations in the incidence of morphological abnormalities in the bovine spermatozoa, Shika, Zaria, Northern Nigeria 61
Steroids
Bovine luteal cell activity in culture. Maintenance of steroidogenesis by high density lipoprotein containing high or low beta-carotene concentrations 165
Effect of oxytocin on steroid hormone secretion by isolated porcine follicular cells in tissue culture 141
Stress
Embryonic development, conception rate, ovarian function and structure in pregnant rabbits heat-stressed before or during implantation 259
Testis
Reproduction in the male dromedary (*Camelus dromedarius*): a review 217
Uterine involution
Cytosol estrogen and progesterone receptors in bovine endometrium after uterine involution postparum and in the estrous cycle 9
Uterus
Effect of different rates of oxytocin infusion on the progesterone primed uterus in chronically catheterised, ovariectomised ewes 69

Animal Reproduction Science, 17 (1988) 319

Announcement

FIFTEENTH ANNUAL MEETING OF THE INTERNATIONAL EMBRYO TRANSFER SOCIETY

Date: 15–17 January 1989
Place: San Diego, U.S.A.
Info: Mr. Carl Johnson, International Embryo Transfer Society, 309 W. Clark St., Champaign, IL 61820, U.S.A.

CONTENTS OF *Animal Reproduction Science*, VOLUME 17

VOL. 17 NOS. 1/2 AUGUST 1988

Bovine salivary progesterone: application to the assessment of ovarian function and early pregnancy diagnosis
L.N. Kanchev, Ch.P. Marinova and B.M. Stankov (Sofia, Bulgaria) 1
Cytosol estrogen and progesterone receptors in bovine endometrium after uterine involution during postpartum and in the estrous cycle
M. Vesanen, V. Isomaa (Oulu, Finland), M. Alanko (Hautjärvi, Finland) and R. Vihko (Oulu, Finland) 9
Chronic treatment with bromocryptine during the oestrous cycle of the cow: evidence that prolactin is not involved in preovulatory follicular growth
M.M. Bevers, S.J. Dieleman and Th.A.M. Kruip (Utrecht, The Netherlands) 21
The development of subcutaneous-delivery preparations of GnRH for the induction of ovulation in acyclic sheep and cattle
B.J. McLeod, W. Haresign, A.R. Peters (Loughborough, Great Britain), R. Humke (Main, Federal Republic of Germany) and G.E. Lamming (Loughborough, Great Britain) 33
Concentration of growth hormone, prolactin and cortisol in fetal and maternal blood and amniotic fluid during late pregnancy and parturition in cows with cannulated fetuses
M.A.M. Taverne, M.M. Bevers, G.C. Van der Weyden and P. Fontijne (Utrecht, The Netherlands) 51
Seasonal and monthly variations in the incidence of morphological abnormalities in bovine spermatozoa in Shika, Zaria, Northern Nigeria
V.O. Sekoni, J.Kumi-Diaka, D.I. Saror, C.O. Njoku and S.A.S. Olorunju (Zaria, Nigeria) 61
The effect of different rates of oxytocin infusion on the progesterone primed uterus in chronically catheterised, ovariectomised ewes
M.M. Al-Eknah and D.E. Noakes (Hatfield, Great Britain) 69
Duration of the cycle of the seminiferous epithelium and daily sperm production of Brazilian hairy rams
F.M. Cardoso and G.F. Queiroz (Belo Horizonte, Brazil) 77
Circannual rhythm of plasma prolactin concentration in the goat
A. Prandi, M. Motta, F. Chiesa (Bologna, Italy) and C. Tamanini (Bari, Italy) 85
The reproductive performance of Ethiopian Highland sheep
E. Mukasa-Mugerwa and B. Tekelye (Addis Ababa, Ethiopia) 95
The effect of a high protein intake on sperm production in boars at two semen collection frequencies
B. Kemp (Wageningen, The Netherlands), H.J.G. Grooten (Helden, The Netherlands), L.A. Den Hartog, P. Luiting and M.W.A. Verstegen (Wageningen, The Netherlands) 103
Endocrine changes associated with spontaneous luteolysis in sows. I. Temporal relationships among prolactin, prostaglandin $F_{2\alpha}$, progesterone and LH
L. Dusza, S. Okrasa, R. Ciereszko, G. Kotwica (Olsztyn, Poland) and J.E. Tilton (Fargo, ND, U.S.A.) 115
Clinical and endocrine responses to pulsatile administration of gonadotropin-releasing hormone (GnRH) treatment during lactation in primiparous sows
S. Rojanasthien, S. Einarsson, H. Kindahl, L.-E. Edqvist and N. Lundeheim (Uppsala, Sweden) 123
The effect of oxytocin on steroid hormone secretion by isolated porcine follicular cells in tissue culture
E. Gregoraszczuk, S. Stoklosowa, M. Tarnawska and J. Rzasa (Krakow, Poland) 141
The development of fluid-filled luteal glands in mares
D.H. Townson and O.J. Ginther (Madison, WI, U.S.A.) 155

VOL. 17 NOS. 3/4 OCTOBER 1988

Bovine luteal cell activity in culture. Maintenance of steroidogenesis by high density lipoprotein containing high or low beta-carotene concentrations
P.J. O'Shaughnessy (London, Great Britain) and D.C. Wathes (Bristol, Great Britain) 165
Effects of bull seminal plasma extract on release of FSH and LH by GnRH injection in pubertal beef bulls
A. Miyamoto, M. Umezu, S. Ito, S. Ishii, J. Masaki (Sendai, Japan) and M. Otha (Miyagi, Japan) 177
Effects of progesterone pretreatment and duration of ram exposure on synchronization of estrus, conception and pregnancy by prostaglandin during seasonal anestrus
A. Lopez Sebastian (Madrid, Spain) and E.K. Inskeep (Morgantown, WV, U.S.A.) 185
Seasonal changes in ovulation rate in Coopworth ewes maintained at different liveweights
G.W. Montgomery, I.C. Scott and P.D. Johnstone (Mosgiel, New Zealand) 197
Puberty in Libyan male goats
M.O.K. Madani and M.S. Rahal (Tripoli, Libya) 207
Reproduction in the male dromedary (*Camelus dromedarius*): a review
A.B. ElWishy (Giza, Egypt) 217
Effects of level of preceding feed restriction and length of flushing period on reproductive performance
A.-H. Tauson (Uppsala, Sweden) 243
Sexual behaviour in the postpartum period of domestic rabbits
P. Diaz, L.F. Gosalvez (Lerida, Spain) and J.M. Rodriguez (Madrid, Spain) 251
Embryonic development, conception rate, ovarian function and structure in pregnant rabbits heat-stressed before or during implantation
D. Wolfenson and Orly Blum (Rehovot, Israel) 259
Effect of prolonged frequency of mating by the male rat on his fertility and on the sex ratio of his offspring
L. Bartoš and S. Trojan (Praha, Czechoslovakia) 271
Sephadex column radioimmunoassay of metabolized oestrone for the monitoring of follicular function and early pregnancy detection in mares
M. Fránek, K. Hruška (Brno, Czechoslovakia), S. Vaňková (Slusovice, Czechoslovakia), P. Kaláb (Brno, Czechoslovakia), K. Hruška, Jr. and P. Kubis (Slušovice, Czechoslovakia) 281

Short Communications

Mammary secretion of oestrogens and prostaglandin $F_{2\alpha}$ in cows near parturition
T. Janowski, S. Zduńczyk, A. Raś and S. Okrasa (Olsztyn, Poland) 297
Seasonal changes in total and selenium-dependent glutathione peroxidase activity in bovine semen in relation to lipid peroxide
R. Slaweta (Jablonna, Poland), T. Laskowska and E. Szymańska (Warsaw, Poland) 303
